25X1A9a

Upon my return from the West Coast I found a note in my basket from [REDACTED] which read as follows:

[REDACTED] said today that [REDACTED] after being told that he would not get the CAF-9 position which he believed he had been promised, went to [REDACTED] and complained that he was being discriminated against, and Personnel, consequently, was embarrassed by the situation.

"This was one of the cases which occasioned a complaint on the part of A & M at the Director's Staff Meeting that Offices and Branches were making commitments in violation of the directive that commitments are to be made only by Personnel".

25X1A9a

I would like to point out in connection with the above that the CAF-7 position which [REDACTED] has finally been offered is the identical position that he was originally offered at CAF-9. This position was changed from CAF-9 to CAF-7 as a result of the recent classification survey.

I should also like to point out that the commitment to offer [REDACTED] a CAF-9 was not made by [REDACTED] and to the best of my recollection there are written instructions to the Chief of the Personnel Branch from the Executive for A & M on file instructing Personnel to employ [REDACTED] at CAF-9. At no time has [REDACTED] dealt with [REDACTED] directly in making commitments to him, and neither [REDACTED] nor the Office of Operations should be criticized for "violation of the directive that commitments are to be made only by Personnel".
